S.No	Date	Days	Training On	Gaurav shenoy K
				Task Description
1	06-Jan-25	Monday	Onboarding session	1. Onboarding procedure 2. Session on company vision, mission, values.
2	07-Jan-25	Tuesday	ISMS Training	Infosecurity Guidelines & Best Practices Traini
3	08-Jan-25	Wednesday	Quiz	Quiz on ISMS and company mission, vision, value
4	09-Jan-25	Thursday	D Drive encryption	Completed D drive encryption
5	10-Jan-25	Friday	Code Of Conduct	Session on Business code of conduct
6	13-Jan-25	Monday	Leadership program Buddy program Self learning on Spring Framework	1. Spring IoC container types 2. Spring bean life cycle 3. Spring callback method examples 4. Spring bean definition template and inheritance concept.
7	14-Jan-25	Tuesday	Self learning session on Spring framework	1. Spring dependency injection 2. Constructor based and setter based dependency injection 3. Spring dependency injection collections.
8	15-Jan-25	Wednesday	Self learning session on Spring framework	1. Spring autowire concept and different ways of autowiring 2. Spring JDBC 3. Spring JDBC Prepared statement
9	16-Jan-25	Thursday	1. Self learning session on Spring framework and JS Async programming 2. POSH Training	1. Spring Aspect Oriented Programming 2. Spring Expression Language(SpEL). 3. JS Async
10	17-Jan-25	Friday	Self learning session on Spring boot	1. spring boot components, configuration class and annotations. 2. Spring security architecture 3. Nodejs modules, File system
11	20-Jan-25	Monday	Self learning session on Spring Security	1. Spring security Overview 2. Different authentication filter 3. Authorization
12	21-Jan-25	Tuesday	Self learning session on Spring boot, Spring Security JWT, JPA integration	1. Spring JWT authentication 2. Spring JPA 3. Lombok Library

13	22-Jan-25	Wednesday	1. Self learning session on Spring boot Rest API 2. Freshdesk Training	1.REST API using Spring boot 2.Handling HTTP status 3.Database connection using JPA 4. Session on freshdesk ticket raising procedur
14	23-Jan-25	Thursday	Self learning session on Spring boot JPA, JDBC	1. Lazy and Eager loading 2. JPQL and Native queries with spring data JP 3. JPA custom finder methods 4. JDBC Row mapper interface
15	24-Jan-25	Friday	1. Self learning session spring hibernate 2. Session on fire Drill, BCP/DR Drill and Finance	1.Advanced caching with hibernate. 2.Custom data types with hibernate 3.Hibernate query language 4.Introduction to Spring boot reactive programming
16	27-Jan-25	Monday	Self learning revision session on Spring boot and hands on coding	1.Revision on the topics covered. 2.Hands on coding session on spring boot concepts
17	28-Jan-25	Tuesday	1. Self learning revision session on Spring boot and hands on coding 2. POSH Training	Implemented a simple spring boot application for performing crud operation
18	29-Jan-25	Wednesday	1. Self learning session on Spring boot, software design pattern, architecture 2. Brain storming session 3. ISMS Quiz	1. Securing REST API with spring security 2. SOLID Principles in programming 3. Design patterns 4. message and event driven architecture. 5. Session on software architecture
19	30-Jan-25	Thursday	Self learning session on Software design pattern	1. SOLID principles 2. Strategy, observer Software design patterns
20	31-Jan-25	Friday	Self learning session on Software design pattern	1. Implementation of strategy and observer design patterns. 2. Implementation of Creational design patterns- factory method, abstract factory method, singleton design pattern
